LOANS REGOTIATED, AND A GENERAL AGENCY BUSINESS TRANSACTED.

Contracted or Stiff Joints.

All the medicines in the London dispensaries would barely benefit, much less cure, any chronic reason of contracted or stiff Joints; whereas if this invaluable ointment be effectually rubbed into such parts twice a day, the effects will be immense. Paralytic patients even can derive advantages from this fine remedy when other means fail.

Scorbutic Humours.—Scald Hoad and Skin-Discases.

Discases.

Scorbutic humors arise from an impure state of the blood, and in most cases the liver and stomach are the organ at fault. The Pilis will speedily restore these to a healthy action; while the Ointment if well rubbed in at least twice a day, will soon cure any case of skin disease. Soldiers, sailors, and miners, ase this famous Ointment in all parts of the world.

Disorders of the Kidneys, Stone and Grave

In any of the above complaints more benefit may, be derived in twenty-four hours by adopting the following simple means than is frequently brough, about in six months by any other treatment. In bad cases if the Ointment be rubbed into the small of the back over the region of the kidneys, it will quickly penetrate, and, in most instances, give immediate relief. Six or cight of the Pills she uld be taken nightly according to circumstances.

Diptheria, Sore Throats, &c.

These maladies are of a serious end to a serious end to see the serious contains t

Diptheria, Sore Throats, &c. 1 moon These maladies are of so serious and dangerous a nature that the Ointment would not be recommended unless the Proprietor was sure of its effect. It will cure when every othe means have failed, if applied immediately, and not delayed until the pats not is beyond receivery. It is swereign remedy for sore throat. Settled Coughs or wheering will be promptly removed by rubbing in this unsuent. Mothers should rub it into the chest of heir inicants whenever there is, any hoarseness, ightness, or other affection of breathing. Bad Legs, Bad Breasts .- Old Wounds, Sores

Bad Logs, Bad Breasts.—Old Wounds, Sores and Ulcers.

It is surprising how quickly a sore, ulcer, or wound, deprives the body of strength, and unitis it for the duties of life; but it is no less wonderful to watch the effect of Holloway's Healing Unitment, when it is used according to the printed directions, and assisted by appropriate doses of the Fills. The pain, inflammation, and other morbid manifestations, soon disappear from the affected part and health and strength return.—This treatment creates sound fiesh, and therefore makes its cures complete.

Gout and Remandation.

Both the Ointment and Pills should be used in the following cases:

WHAT THE FREE PORT PARTY

Our morning contemporary, in a rather amusing lucubration yesterday essays to tell us what the free port party have done. They have, in the first place, he says, passed the union resolutions of the House. How totally oblivious has the unfortunate writer become porters, was fought on this very issue-

when he overlooks the fact that the last Vic torian election, which shrivelled up the freewhether the resolutions which passed the Assembly were the voice of the Victorian electors or not. Yet we have now the astounding news that the free port gentlemen spent their electioneering money in order to carry out the resolutions on which Mr. De Cosmos resigned to test the popular voice. By and by our contemporary will be claiming for the free port party the iniquity of the vegetable permits. He again informs us that the Homestead law is especially a free port measure. Well, considering that Mr. DeCosmos was the man to introduce the the bill into the Assembly, we must say the Chronicle is rather discriminating. Dr. Ash. the great free-port candidate, denounces the Homestead law in the most unmeasured terms, and our contemporary says the doctor is a perfect Crighton; the natural conclusion is, therefore, that either the Chronicle or Dr. Ash does not know what he is talking about The Lien law, our contemporary says, belongs to no party. If he will refresh his rather dim recollection by a look at the journals of the House he will see that it was introduced by Mr. DeCosmos and supported by the union and tariff party. The tax on uncul-tivated lands we think he will also learn from the same source was introduced by the men who voted for union and tariff, and he will also learn that his friend, Dr. Ash, and supporter, Dr. Helmeken, are the most inveterate opponents to the measure (both gentlemen being land speculators) that can be found in the colony. The abolition of imprison-ment for debt was never introduced and carried through the House until the union and tariff party took the question in hand Our contemporary, after this series of laughable blunders and misstatements, winds up with the profound assertion that the free porters have had reciprocity in their keeping since 1856. It is quite possible they may have had it even since '49; but like many other good things they took especial care to let nobody participate in its advantages. We think we are safe in saying that if they nursed the thing for nine years in the past without effecting anything, they will nurse it nine years in the future with the same profite ble results. The fact is the men are entirely incapable of effecting a single beneficial measure. When a commercial crisis occurs they are struck dumb, and can only make few pantomimic appeals to their free port. As we have said before they are merely stumbling blocks in the way of not only good legislation for the farmer but good legislation the Island. Their last act in putting Dr. Ash forward for a farming district, when every one knows the doctor is pledged to sacrifice Metchosin and everything else for the free port, is in keeping with their other follies. The settlers will show them, however,

the farmer's friend, that they have egregiously in this instance mistaken their mark.

by returning to the Assembly Mr. Elliott,

CALIFORNIA TAXATION. Elsewhere we publish an article from the San Francisco Rulletin on the subject of California taxation as compared with our own. According to our contemporary it would appear that the State and Municipal taxation of San Francisco, exclusive of pay ments for indebtedness already accrued, amounts to \$6 49 per head. Including the interest on the State and Municipal debts, as well as the sinking funds, the taxation will reach \$12 70. The Bulletin, however, does not give the Federal tax, which amounts to almost an equal sum. The real amount per head, therefore, which the citizens of San Francisco are called upon to pay is somewhere in the vicinity of \$23. There is, however, a wide difference in the relative positions of a British colony and an American State. The colony has only to pay for its internal government. The heavy armaments of Great Britain, which are at all times ready for colonial defence, are supported in their entirety by the mother country. But every State of the American Union is called upon to contribute its quota toward the general protection. Leaving out the army and navy, and leaving out the municipal taxes, which were not included in our statistics of the British colonies, we find that each citizen of San Francisco contributes but four dollars and a half, which goes to the State Government,-a Government that is closely analagous to our own. This pays for all the offices of State and all the public works. For a gold country the economy is almost mar-vellous, and appears indeed even more so, when we come to examine minutely the institutions of the country. When we discover that gratuitous services to the State are almost unknown-that even the Senators and Representatives are paid for their attendance out of the public pocket the wonder does indeed increase. But there is a power of utilizing official labor in the States that is almost unknown with us The Americans have a much smaller staff, comparatively speaking, with much smaller salaries, yet that staff will do double the work of a similar number here, for the very simple reason that the men are responsible to the people. Wherever we look around we find economy in nearly every instance, the sure accompaniment of responsibility, and the converse holds equally true. Municipal

ense municipal works is nearly twice as expensive in San Francisco as the iate administration—the amount per head in the Bay City being over \$8, in clusive of interest on debt and sinking fund Altogether, no country in the world pays so little in proportion to its capacity, and the mount of services rendered by the State, as California. The people virtually support three Governments—the municipal, State and Federal—and although the latter is at present unusually expensive on account of the recent war, the entire amount contributed pe head by the inhabitants is very much below that paid by many of the British colonies fo

held for speculation, would receive my support, as well as an act to assist the settlers in the extermination of wild animals.

Retrenchment in the expenditure of our Government is greatly needed, it being at present far beyond the requirements or the means of our nonulation.

beyond the requirements of the means of our population.

The abolition of the Imprisonment for Debt and the passing of a Homestead Law I should use my carnest endeavors to obtain.

The establishment of a School in the district of Metchosin and the opening up of a new road to Cowichan are points of local interest which it would be my duty to further by all the means in my nower.

my power.

I am of opinion that the Statute Labor Act should be materially reformed, as in its present

T. P. FREEMAN'S.

WARREN STORES. Waddington Alley and cor. Government & Cormorant Streets

Merchant Tailor, Yates street, wishes to inform his friends and the public that he will commence, on Saturday, candidate for the honorable position of being one of your representatives in the House of Assembly.

Having already had the pleasure of laying before you individually my views in relation to the principal political topies of the day, it will be unnecessary to enlarge upon them to any length in this address; but I beg to submit the following synopsis of the course which, in my humble opinion, should be pursued as best calculated to promote the welfare of the colony at large;

The Union of the two colones I hold to be absolutely indispensable to the advancement of both, and every exertion should be used to accomplish that end as speedily as possible.

The raising of a portion of the revenue by import duties, I have always advocated, not only as the fairest method whereby the burden of taxation may be shared by all classes, but as affording assistance and encouragement to the agricultural and other productive interests of the colony, upon the growth of which the well being of every country must mainly depend.

As, however, the question of Union is at the present time under the consideration of the Home Government, I should not advocate any material change in the present system of taxation until union shall have taken place.

At a upon unnecupied and uncultivated lands held for speculation, would receive my support, as October 7th, to sell his entire stock of Clothing, Cloths, Cassimeres and Vestings at Cost, to close the business in the shortest time possible. I am of opinion that the Statute Labor Act should be materially reformed, as in its present state it works most unequally and unfairly.

I fully endorse the action taken by the House of Assembly during last session with respect to the Crown Lands and shall use my bestendeavors to obtain for the people the cession of those lands or their equivalent.

For two or three years past I have made it my particular study to arrive at a knowledge of the resources and requirements of each settlement in the colony and am more than ever convinced that it will be the true polley of our Legislature to foster and encourage the agricultural interest, there by lessening the evil of the suicidal polley at present pursued of buying almost all the necessaries of life from another country with whom we have no reciprocity of trade.

As your representative I should deem it to be my duty, as it would be a pleasure, to visit you and consult your wishes when any matter of particular moment or local interest may tries. Upon other points I shall have opportunities of expressing my views to you personally and should you think fit to entrust me with the responsibility which I now seek at your hands you may rely upon your interests being cared for to the best of my ability.

I have the honor to remain,

Gentlemen,

Your most obedignt servant,

CLOSE OF THE VOLUNTEER CLASS FIRING-The class firing for the gold and silver medals was continued yesterday morning, and nine volunteers presented themselves, who at the long range were reduced to three - Sergt. Bowden, Corporal Peele and Bandsman Hargreaves, the first scoring 40, the second 46 and the third 37. The total result of the whole firing leaves Bandsman Thomps son the winner of the gold medal, with 76 points, and Corporal Peele winner of the silver one. A rifle, valued at \$40, and presented by Mr. Daniel Scott of this city, was then shot for at 200 and 300 yards, five shots at shot for at 200 and 300 yards, five shots at each. Sixteen members competed, and made very fair shooting, resulting in a tie between Privates Newbury and Soar. The former was down in the score book for 30 points, equal to a centre for every shot, while Soar's total was 29, but a difficulty arose owing to a mistake in the marking, and was settled by Newbury generously conceding one point so as to make it a tie, which was shot off with three shots each at 200 yards, and reso as to make it a tie, which was shot oil with three shots each at 200 yards, and resulted in Nowbury making 11 points to Soar's 9. Thompson now holds a rifle and silver medal won last year, and a watch and gold medal won this year. Private Newbury has won a silver cup and a rifle at the present meeting, which has now closed for the year.

ANOTHER COAL MINE .- Mr. H. O. Tiedeman returned on Monday night by the Emily Harris from Nanaimo, having been sent up by the Government to survey a coal mining location asked for by the discoverers, som Nanaimo miners. The locality is some 40 miles above Nanaimo, and the coal seams, of which there are two, are four feet thick each and are on both sides of a small river abou one mile from the coast. The seams are o one mile from the coast. The seems are of different qualities, the lower one being a kind of anthracite, and the upper bituminous; the latter is so full of bitumen that it sticks together like wax. The stream affords a good water power, and there is a gentle inclination from the spot to the coast, where there is an excellent harbor. The company consists of excellent harbor. The company consists of ten shareholders and has made a requisition for 6.400 acres of land .- Post.

J. H. Turner & Co. of London House, have just received by express from the European manufacturers, large additions to their stock of the richest and most fashionable Dress Goods, Winter Mantles, Silks (the finest eye Goods, Winter Manties, Sins (the mest ever imported to this colony,) splendid Lace goods, newest and most charming styles of Bonnets—the "Fanchon" and "Empire;" irresistable Hats and Trimmings, and a variety of fascinating articles, that must be seen to be appreciated.

DEATH AND INQUEST .- Mr. A. C. Ander son. Coroner for the District, has held an inquest at Cowichan on the body of a man named Hamilton, who was discovered dead in a potato field a few days ago. According to the evidence taken Hamilton was chasing pigs and suddenly fell down and expired There being no medical testimony to assist the jury they returned a verdict of " death by the visitation of God.'

and integrity.

3d.—When I first ascended Bear river I and integrity.

3d.—When I first ascended Bear river I obtained fine flowery gold, a sample of which I forwarded by Mr Hankin, which considering the short distance from its mouth and the locality obtained, not only gave myself but the whole of the party great faith that payable gold would be found higher up the river. After ocurning from Refuge Cove, where I had to meet a vessel for supplies, I divided my party so as to enable me to prospect the river as well as circumstances would allow; and as any practical miner will allow that to prospect such a river as Bear river it would take as many months as days, that I remained on the river. In pronouncing my report a gross falsehood, I must say they were not justified in so doing, considering the time they remained on the river, and that many acted on the reports of others who in haste had overrun the place where the original prospects were obtained, thus having no grounds to pronounce it a humbug. Since my return to town I have spoken to many who went to Bear river, who state that of the 130 who went not one-fourth of them put a pick or shovel in the earth, and some few who had obtained fair prospects and wished to test the river were induced to return with the Otter because they saw no chance of being able to teturn if they wished to 6 so. THE HORSE RACE-The match race for \$300 a side between Williams' mare Volreece, ridden by Fitzpatrick, and Phelps' mare Fanny King, ridden by Wash, came off yesterday afternoon at the Beacon Hill course, The weather was splendid and the course in fine order. The race, however, did not prove as interesting as was anticipated, as Volreece had it all to herself, and was landed by Fitzan intention expressed some months ago, the takes place to-night, under the patronage of Sir James Douglas, K.C.B., the pieces to be presented being "Black-Eyed Susan" and the "Wild Irish Girl." There was a rush the Otter because they saw no chance of be-ing able to return if they wished to do so. Bear river is not the first place where gold has been obtained in payable quantities and been pronounced a humbug and afterwards turned

steamer Active would leave Portland on

Eliza Anderson, before leaving Olympia, the steamer Active would leave Portland on Monday evening with troops to connect with the mail steamer Orizaba, which left San Francisco on Sunday at noon. 6th.—To show the sincerity of Hancock 6th.—To show the sincerity of Hancock and Forgie's report they offer to accompany any small party that may choose to form, and to show them payable gold, and if they fail to do so they are willing to pay all the expenses, but if they verify their statement they want their expenses paid. Had an opportunity offered they would have stayed at Bear River, partly to prove their former statements and because they think it would now them.

to overcome their better judgment, and as I stated in my previous report I believe the river to be spotted, and that the greater portion of the miners went above where the original prospects were obtained. In conclusion I will add that if I have been the means of deceiving the public it was unpremeditated on my part, I have everything to lose and nothing to gain by it, having borne the name of an honest man among many in Victoria, the loss of which is great indeed.

I have, &c.,

I have, &c.,

John Buttle,

Commander of Exploring Expedition.
The Hon. the Colonial Secretary.

SAN FRANCISCO AND HER TAXES. [From the S. F. Bulletin.]

We find on examination that the inhabi-tants of San Francisco in 1864 contributed for the support of the State and municipal governments \$1,432,003. Of this sum \$255, 724 was for municipal and \$506,279 for State governments \$1,32,003. Of this sum \$925, 224 was for municipal and \$506,279 for State expenses. Taking the population of San Francisco at 112,700, as set down in the Directory for the same year, would give a taxation upon the citizens of this city equal to \$12.70 per head. Of this amount there is required for the payment of interest upon the municipal debt and the formation of a sinking fund to reduce the same \$472,474; making with the city's proportion of the interest upon the State debt a sum approximating to \$700,000 annually. According to a statement just published, the amount necessary at the present time to meet the accruing interest and form a sinking fund for the municipal debt is \$541,674; but inasmuch as a considerable sum has already accumulated in the sinking fund the estimate for 1864 is sufficiently correct for our purpose. From this it will be seen that our total expenses of the municipal and State governments, exclusive of payments for indebtedness already accrued, is about \$732,003, or \$6.49 for each person in the city.

accrued, is about \$732,003, or \$6 49 for each person in the city.

Although State and city expenses could be considerably reduced, yet, aside from the taxation for the payment of debts, the inhabitants of San Francisco are much better off than some of their neighbors—for instance, those of the British provinces north of us. From a late number of the British Colonier we learn that the taxes of British Columbia amount to \$100 per head for every man amount to \$100 per head for every man, woman and child throughout the territory. The same journal further states that the taxation on Vancouver Island averages from \$65 to \$70 for each person. The resources of British Columbia and Vancouver Island must their innocence.

An Epicurean Bran — A few days ago a large hear made its appearance on a farm near Fry's at Sanich, attracted by the healthy and rotund appearance of a few sportive young pigs. After admiring for a time the perkine gambols, Bruin, like many a human animal, became covetous, his imagination drew unctious pictures of a dinner on Island fed pork, and with not even the fear of Island fed pork, and with not even the fear of Island fed pork, and with not even the fear of Island fed pork, and with not even the fear of Island fed pork, and with not even the fear of Island fed pork, and with not even the fear of Island fed pork, and with not even the fear of Island fed pork, and with not even the fear of Island fed pork, and with not even the fear of Island fed pork, and with not even the fear of Island fed pork, and with not even the fear of Island fed pork, and with not even the fear of Island fed pork and [Here follows our table of taxation.—ED

Cor... From the above it will be seen that taxas

dinary amounts of money may be drawn from a frugal and industrious people. In this respect the capabilities of the United States have never been properly estimated. Her citizens being comparatively free from debt, and having an economical government, taxes until recently were merely nominal throughout the Union. Extravagance and mismanagement in a few large cities have involved the people for the time, being, but even in such cases the capacities of tax payers have never been subjected to an overstrain. Probably the inhabitants of the United States under the new order of things, including inder the new order of things, including nterest upon the National debt, will have lighter taxes to pay than any other commer-cial nation in the world; surely not one-half as much in proportion to their capacities as those of either France or England.

TELEGRAPHIC.

Additional news, from despatches to the Oregonian :

THE FENIAN MOVEMENT IN EUROPE NEW YORK, October 8th.-The Times ondon letter of Sept. 17th, has the following, relative to the Fenian excite-

Dublin, nearly as many in Cork and a few in Liverpool, and some in the manufacturing towns of Lancashire—among the rest ome Irish Americans. For others, re of £200 and £100 are offered. One Murphy, from Boston, on being arrested said he soould represent his case to Seward; on the mere mention of that name he was set free by the authorities at Dublin Castle. The panic at Cork and other towns in the southwest has not been diminished. There have been runs upon the local Banks. The steamers, and bassengers' baggage, have been searched for documents and revelations. A gun-boat is cruising off Cork harbor to intercent Yankee ships said to be on the way to Ireland with arms for the Fenians.
There is a lively demand for fire-arms by those who mean to defend themselve humble rank of all those who have been arrested. They are all small tradesmen, clerks, artisans &c. The most considerable person ie Dublin is Taylor.

The chief informer against the Fenians appears to have been one who had been advanced to the grade of Colonel in the great Fenian army, but who having no pay, rations, or forage suitable to the rank had been suffered to go to the work-This unfortunate dignitary in σ over his wrongs concluded that brooding over his wrongs concluded

which sailed from this port on Saturday are said to have taken out a million in bonds for the use of the embryo Irish Republic. It is currently reported that as soon as these bonds reach Ireland matters will assume a more definite form A proclamation, also printed here, will e spread broadcast throughout the land So well guarded is every avenue that there is no possibility of the British government obtaining these documents, or interfering with the plan. It is claimed that the bend have reached. MOUNT Hood is said by the Oregonian to be in a state of fusion, and was at last accounts emitting dense volumes of smoke.

For Nanamo—The steamer Emily Harris left yesterday morning with passengers and freight for Nanaimo and way ports.

SUMMARY COURT.

River, partly to prove their former statements and because they think it would pay them well, and moreover there is a party forming government obtaining these documents, or interfering with the plan. It is claimed that the bonds have nearly all been subscribed by many people whom the government little suspects. On the other hand the British Government claims to the proper time, seize and to overcome their better judgment, and as I to overcome their better judgment, and as I who will at the proper time, seize and turn them over to the home government. In all probability both these steamers will probability both these steamers will be thoroughly searched before going to Queenstown, at least before any passengers or freight are allowed to land. War vessels are by this time stationed at Queenstown for this express purpose.

FROM MEXICO.

NEW YORK, October 3.—The steamer Star of the Union from New Orleans, with dates to Sept. 23d has arrived The Times' City of Mexico correspondent says Arrests of Liberals and those suspected of Liberalism are so numerous that it will take half the nation to guard the prisoners. The most barbarous orders are issued by the French commanders, one being that every man wearing leather—and the lower classes use no other material—shall be hanged. On the 17th of August an an Austrian gurison of 500 was attacked at Estafetts. It is said the battle lasted two hours, when the place was carried by storm. The Imperial loss is enormous The Juarists captured over \$100,000 besides \$12,000 levied upon the inhabi

tants of the town.

Mexican accounts say the Imperial Government has made a grant of twenty thousand acres of land to Francis M. Campbell and his associates. Americans from Texas. The grant is located near Cordenna, where there is some of the best lands in the country.

NEW YORK, Oct. 4 .- A Vera Cruz

letter, dated September 21st, says, Marshal Bazaine has discovered a conspiracy in the Capital and has put upwards of two hundred of the most prominent residents in the city in prison. As he has a police force of his own, and has supreme power, whenever he sees fit he can have persons imprisoned without consulting Imperial authorities. This has occasioned serious difficulty between the Emperor and the Marshal. The former made a trip into the country while the latter liberated those prisoners who could prove

Coast, was assailed without mercy on the return of the Bear river victims, we doem it but just to Mr. Buttle that his explanatory report (which we have been permitted to copy by the Colonial Secretary), should have full publicity:

Victoria, 12th Oct., 1865.

Sir,—With regard to the explanation sought by His Excellency the Governor from as the commander of the exploring explanation in the British colonies to show what extraordinary amounts of money may be drawn from the soughed by scalds and bruises.

The many statements of the second in the British colonies to show what extraordinary amounts of money may be drawn from the soughed by scalds and bruises. Twenty-five chinamen are believed to were wounded by scalds and bruises. Twenty-five chinamen are believed to have been lost. None of the ladies on

The steamer Crysopolis, which arrived at three o'clock brought up all, of the dead and wounded, except one body which could not be recovered. The following account is furnished by one of the Yosemite's passengers :

Office: Steamer Crysopolis, Friday, Oct. 13, 2 o'clock A. M. To EDS. UNION: I undertake a painful duty in attempting to give you a description of the terrible disaster on the steamer Yosemito, which occurred at the Rio Vista landing, last evening, and from which I amount of the steamer Yosemito, which occurred at the Rio Vista landing. last evening, and from which I amount of the steam of the st which I providentially escaped. A few minutes past 6 o'clock p. m., as the steamer was leaving the landing the boiler exploded, throwing all the upper cabin, pilot house, everything forward of the smoke stack into a total wreck, causing a scene of death and disaster. causing a scene of death and disaster most horrible to look upon, and which I will not attempt to describe

The injury sustained by the Yosemito is not as yet fully ascertained. The fort ward cabin was entirely demolished but the hull is supposed to be uninjured. the moment of the explosion the safety valve was blowing off steam under a pres-sure of 25 pounds

The Yosemite's certificate allows 35 pounds. The steamer had been detained 5 to 7 minutes at the landing on account of the quarterly settlement with the Post Master and just com-

nenced to back from the landing. The only plausible conjecture which has been given as a cause for the explosion was that most of the passengers were were to the shore side which threw the water too much to one side of the boiler. The screams of the victims in the cabin o the Crysopolls as I write are heart-rendin in the extreme. In passing from one to another of the beds on the floor for the purpose of getting names &c, the sensation was sickening, the saddest duty I ever performed. All that could be done for the sufferers in the absence of physicians has been cheerfully rendered by the officers and attaches of the steamer and the passengers, the ladies giving all the assistance in their power. But we are nearing Sacramento and I close WM. W. BARNES.

Holloway's Ointman and Pills are an infallable remedy for bad legs, and all kinds of wounds. The surprising sale of these invaluable medicines, in every part of the cirlized world, is the most convincing proof of the efficacy. They speedily cure bad legs, old wound efficacy. They speedily cure bad legs, old wound efficacy of the efficing from these dreadful maladies have been cured by these medicaments, after very other means had failed; and it is a fact very other means had failed; and it is a fact of the effect of the efficient of the efficiency of the effect of the efficiency of the efficiency of the effect of the efficiency of the

ing so soon gives relief as Holloway's Pills.

Holloway's Pills—Liver Complaints—The virtue of these incomparable Pills are fully appreciated in every part of the civilized world. As they act on the general system through the circulation, there are few diseases which they cannot care; but they are especially efficacious in all the disorders of the liver. For tose they are an indubitable specific. They cossess unrivalled potency for good, while they cannot do harm. A child might physic itself with these Pills, and without the slightest danger, except from such excess as would make the most wholesome allment in the world an evil. By reducing the superfluous bile, regulating it by reducing the superfluous bile, regulating is due secretion, and giving tore to the stomach, they effect a permanent and perfect cure.

The whole of the material to be removed within we months from the date of sale. TERMS CASH. HENRY V. EDMONDS,

TO THE ELECTORS OF ESQUIMALT AND METCHOSIN DISTRICTS.

GENTLEMEN:—A vacancy having occurred in the Representation of your District, 1 humbly offer myself as a candidate for your suffrages to ill the office. fill the office.

It is customary and proper that a candidate should lay before the electors his views on the questions of the day. I would here briefly express my opinions on some of them, and when calling on you shall be glad to afford any further information or explanation.

With reference to the Union of this Colony with British Columbia, the Legislative Assembly have thready agreed on and sent home resulting.

With reference to the Union of this Colony with British Columbia, the Legislative Assembly have already agreed on and sent home resolution declaring Vancouver Island to be desirous of Union under any Constitution which to het Majesty might appear advisable, renders it probable that Union will shortly occur—thus leaving little to be said, save that it is of this utmost important e that the question should be definitely settled as soon as possible, and the Colony relieved from its present suspense, so injurious and to obstructive to progress.

Meanwhile I believe it to be necessary that the policy of Free Trade should be faitfulfully main-iained, for in our present expectant condition it is at least prudent to make as few changes as possible. If Union should take place, a general election must ensue. The Legislature of the united Colonies will then have to decide on the policy most likely to be advantageous to the country at large.

Reciprocity of Trade with our friends and neighbours of the United States of America would I believe, be of the greatest mutual benefit, and every effort should be made to have this Colony every effort should be made to have this Colony

Reciprocity of Trade with our friends and neighbours of the United States of America would I believe, be of the greatest mutual benefit, and every effort should be made to have this Colony included in any treaty concluded between the authorities of the United States and the British North American Provinces.

Imprisonment for Debt should be forthyith abolished except in eases of fraud.

Immigration is highly necessary to our prosperity, and I would do all in my power to carry out any justifiable plan for the settlement of the public lands. The construction of good roads is an obvious duty. I believe something ought to be done to encourage the extermination of beasts of prey in partially settled districts like yours.

A Reform of the Constitution is necessary in order that the Legislative bodies may be rendered independent of Exceutive control.

The Official Expenditure of the Colony must be materially reduced, and by this means the diminution of Taxation, so absolutely necessary, brought about. Whilst in favour of Direct Taxation, it is advisable that our, Revenue should be drawn from a wider area.

Should you deem neworthy of being your Representative, it will be my constant endeavour to promote your special interests.

I am, Gentlemen,

Victoria, September 29th, 1865.

policy most likely to be advantageous to the country at large.

Reciprocity of Trade with our friends and neighbours of the United States of America would I believe, be of the greatest mutual benefit, and every effort should be made to have this Colony included in any treaty concluded between the

I believe, be of the greatest mutual benefit, and every effort should be made to have this Colony included in any treaty concluded between the authorities of the United States and the British North American Provinces.

Imprisonment for Debt should be forthwith abolished except in cases of fraud.

Immigration is highly necessary to our prosperity, and I would do all in my power to carry out any justifiable plan for the settlement of the public lands. The construction of good roads is an obvious duty. I believe something ought to be done to enceurage the extermination of beasts of prey in partially settled districts like yours.

A Reform of the Constitution is necessary in order that the Legislative bodies may be rendered independent of Executive control.

The Official Expenditure of the Colony must be materially reduced, and by this means the diminition of Taxation, so absolutely necessary, brought about. Whilst in favour of Direct Taxation, it is advisable that our Revenue should be drawn from a wider area.

Should you deem me worthy of being your Representative, it will be my constant endeavour to promote your special interests.

ears ago, and may be fairly regarded as one o The Weekly British Colonist

possible; they will retard the alarming symptoms till the blood is purified and Nature consummates the cure, gratually restoring strength and vital nervous power. By persevering in the use of Holloway's preparations, tone is, conferred on the stomach and frame generally; the fluids are regenerated, morbific matter is expelled, and a happy revolution occurs throughout the system.

Holloway's Ointment.—Wounds, Sealds, Burns, and Irritating Sores.—The peculiarly mild, soothing, anti-inflammatory power exerted by this Jointment strongly recommends its use to all persons who have charge of children. Accidents will occur in the nursery in spite of the greatest caution and utmost vigilance. The scratch, the burn, or the scald, treated early with this Ointment, assumes no angry aspect, and nover long trues the little sufferer, whose very cry excite each bystander's compassion and pierces the parents heart. Every nurse should consider this invaluable Ointment an essential to a well appointed nursery. The Ointment is applicable to any ore, whatever its character. It conducts to health as sure as the compass points to the north.;

Holloway's Ointment and Pills—Palpitation, Shortness of Breath, Dropsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are always severe, and ever go from bad to worse, unless proper mans of cure be resorted to. In Holloway's unrivalled Ointment and Pills' the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the steady application of this noble Ointment invariably results in a lasting and satisfactory cure. The two medicines act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

HOLLOWAY' OINTMENT AND PILLS.—Fistu las, Piles, Exceriations, and Strictures, are speedily relieved and ultimately removed by applying this Ointment after fomentation with wa plying this Ointment after fomentation with warm water. Persons suffering from these scourges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unchecked, not only weaken the nervous system, but destroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved a painful death. In experience in the sufferer has been saved a painful death. In experience, a few applications of this healing Ointment effect a cure, while the Pills, conjointly used, are especially beneficial in relaxing and removing strictures, whatever their situation or duration.

HOLLOWAY'S OINTMENT AND FILLS, a certain remedy for diseases of the skim-Ringmorm, scury, scrofula, or king's cril, vorc heads, and the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are cradicated from the system, and a lasting cure is chianned. They are quality efficacions in the cure of tumours, burns, scalds, iglandular swellings, ulcerous wounds, rhennylitem, contracted and slifjoints. These needleines operate mildly and surely. The cure effected, by them is not temporary or apparent only, but som plete and permanent.

RADWAY & CO., 87 Maiden Lane, New York. Holloway's Ointment and Pill.*.—The family medical chest that is furnished with these powerful remedies needs nothing more. Indigestion, general dibility, liver complaint, eruptions, sores, wounds, ulcers, tumours, &c. are infalibly cured by their use. They purify the blood and give tone and vigour to the whole system. The Ointment, when well rubbed into the parts affected, enters the flesh just as salt enters meat, and if the Pills he taken as an auxiliary, use carro is speedy, thorough, and permanent. Those medicaments are composed of rare balsams, without the admixture of a grain of mercury or any injurious substance. They are peculiarly mild and gentle in their action, and are as safe as they are efflections.

Holloway's Pills—No family should be

are efficacious.

Hot.Loway's Pills—No family should be without these pills—Their long-tried efficacy in removing indigestion, atimulating the bowels, and purifying the blood, have secured them imperishable praise throughout the globe. Whatever the disease, a few doses will relieve the more urgent symptoms and thereafter completely control all disordered action, rouse the torpid liver, empty the engorged spleen, clemes the obstructed kidneys, assimilate the food, improve the blood, and thereby confer on the brain and every function healthful vigour, natural activity, and wholesome regularity, In cases of indigestion, dimness of sight, headache, mental and physical lassitude, these restorative Pills act as a charm. They expel rheumatism and gout, while they inf-libly correct female complaints in young and old, delicate and robust. HOLLOWAY'S PILLS AND OINTMENT-Stomach HOLLOWAY'S PILLS AND OINTMENT—Stomach and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all diseases afflicting the kidneys. The disordered stomach is often the first index or renal irregularity. Holloway's remedies used at that juncture would cut short many a serious and fatal attack. They not with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their healthy functions, and casting out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed, and greatly sugments the purifying and salutary influence of the Filia.

Huence of the Pills.

Holloway's Oinyment and Pills—Acute Rheumatism. In all severe pains in the joints and muscles, after due fomentation with hot water, the soothing action of this fointennt is most remarkable; it seems at once to lessen inflammation, easo pain, reduce the swelling, restore the free circulation, and expel the disease. In these complaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can bear; it is abserbed and directly conveyed to the diseased textures, when, acting on nerves, vessels, and guiders, it will arrest disease and purifying qualities of the Pills have the happiest effect in assisting the Ointment.

effect in assisting the Ointment.

Holloway's Pills.—General debility, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach, renovate the digestive powers, purify the blood, and give strength to the whole system. Sluggishness of the body and depression of the mind are succeeded by a cheerful activity of the physical and mental functions. Indigestion is the parent of so many evils, and is so common, so universal a complaint, that it is a great blessing that such a remedy as this invaluable medicine should have been discovered. No one need long suffer from indigestion with these Pills at hand.
